Covid-19 Hamper

We will be announcing other ways in which we can assist Inuit living in Manitoba as you deal with the challenges of living within the new landscape of COVID-19. Stay tuned over the next several weeks for more information that we will send to you as members of MIA, as well as communicate to the Inuit living in Manitoba through our **MIA Facebook page and website.**

Indigenous Services Canada | Services aux Autochtones Canada

Manitoba Inuit Association knows that during these times of uncertainty related to the COVID-19 Pandemic, Inuit families have been impacted in many ways; food security and the capacity to disinfect homes has become challenging. We want to help with this.

Manitoba Inuit Association is grateful to have received funding from Indigenous Services Canada's Community Support Fund and Nunavut Tunngavik Incorporated as well as the continued partnership with Winnipeg Harvest to assist us in providing Emergency Food Hampers to Inuit in need.

Manitoba Inuit Association staff are busy putting emergency hampers together that we will deliver to Inuit households in Winnipeg. They contain some perishable and non-perishable food items, personal hygiene and household cleaning items in addition to baby supplies and country foods (when available).

Please inbox us if you would like to receive an Emergency food hamper. Or call us directly at 204-774-6848 to talk with Zeann Manernaluk.

For those living in Winnipeg, we will need your name and address so that we can deliver the hamper to you. We will also be asking questions related to any allergies or dietary needs, if your household have children and what their ages are as well if Elders are also living with you.

For those living outside Winnipeg but are able to drive in to pick up your emergency hamper, we will also be asking questions related to any allergies or dietary needs, if your household have children and what their ages are as well if Elders are also living with you. We will be arranging a time that you can come by MIA's office at 1000 Notre Dame to pick up your emergency hamper.

For those living outside Winnipeg in rural and remote towns and communities where you can't drive into Winnipeg and we can't get to you, we want to assist you as well.

Please contact us directly at 204-774-6848 to talk with Zeann Manernaluk, who will make special arrangements for you to also benefit from receiving emergency food hampers.
